

Mustafa ECE

Jr. Front-End Developer

Summary

Improving myself in the field of Front-End development. After studying Mathematics at Ege University for three years, I decided to shift my focus towards Web development and eager to begin my career in web development. I possess major soft skills such as being a self-starter and a quick learner. With this goal in mind, I enrolled in the Computer Programming department at Atatürk University in 2021. I'll graduate in the summer of 2023.
