Projects Experience

Portfolio Website https://mstfecedev.netlify.app/index.html
I provided information about myself on the website, both in Turkish and English.

AutoGo Rentals https://autogorentals.netlify.app/
I developed a multi-page website offering car hire services.

Storm Shields https://stormshields.netlify.app/
This web application is designed to show users information such as weather, humidity and wind speed.

Yummify https://yyummify.netlify.app/
It is a project that aims to present the restaurant menu in a virtual environment.

GYM Website
is designed to provide an online platform for the gym.

Music App
A simple project I managed to create using Spotify API.

Quote Generator
Made with external APIs and HTTP requests.

Find Github Users
I used the value of an entry to search for users on GitHub using their username or email.

Languages

Turkish: Native
